School Board of Fremont.

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Board and Citizens of Fremont:

Herewith I submit to you my seventh annual report as Superintendent of Schools.

MORE RELIABLE REPORT CARD MARKS.

Short weekly standardized tests in reading and arithmetic, grades 3 to 8, are now supplied to the teachers. These same tests have been given to very many pupils of the corresponding grades in many other towns and cities, and there is a record of the scores made by the pupils of each grade. By comparing our pupils' marks with those made in the other towns and cities, our teachers have a reliable guide for judging just what quality of work our pupils are doing.

ASK TO SEE THE NEW ARITHMETIC PRACTICE EXERCISES.

This year the schools have been supplied with some new practice exercises in arithmetic. They are bound into pamphlets and are called "The Arithmetic Work Book." We are expecting them to assist in raising our arithmetic work to a higher standard. They are for grades 3 to 8.

MORAL INSTRUCTION IN THE SCHOOLS.

The **religion of behavior** and conduct includes the principles of honesty, reverence, kindness, courage, temperance, fair-play, justice, thrift, industry, etc., including many other such characteristics.

In our efforts to build those principles into the characters of our boys and girls the following measures are taken:

1. No teacher is given a license to teach in this State whose moral character has not been certified to by three persons, and her license is permanently taken away if immorality is proved.

2. The Bible or Bible stories may be read in the morning exercises.

3. The morning session is opened with prayer.

4. Inspirational poems or psalms are memorized.

5. Reading books are chosen that have some character-building material.

6. Books describing the lives or accomplishments of our great men are added to the school library.

7. The teacher in her class-room discipline and playground supervision attempts to require the pupils to follow those principles of behavior in their school life.

8. Various other ways, as stories told, discussions, dramatizations, etc.

The above principles in the **religion of behavior** are common to all creeds, hence should be taught in the public schools.

The **religion of belief** is sectarian; its principles vary according to the denomination of the church. Hence, these should not be taught in the public schools, but reserved for the Sunday school and home. They include such items as the following:

1. Must a person be baptizied in order to be acceptable to God?

2. Was Jesus a divine being, or was he a perfect man?

3. Is it true that Jonah was in a whale three days?

4. Will Christ return in person to rule on earth 1000 years?

5. Did Peter really found the church in Rome?

6. Did the crucifixion of Christ relieve us from the consequences of our own sins?

The old state law says, "No book shall be introduced into the public schools calculated to favor any particular religious sect."

SCHOOL OBSERVANCE OF HOLIDAYS.

Labor Day, Columbus Day, Armistice Day, Thanksgiving Day, New Year's Day, Washington's Birthday, Fast Day, Flag Day, Memorial Day and Arbor Day are the **ten** holidays that occur while school is in session.

In New Hampshire seven of these are so-called "legal holidays." The term, "legal holiday," does not mean that schools must not keep, or that banks, factories and stores must be closed. It merely means that if a check or note is so dated that it falls on that holiday, payment cannot be demanded until the next succeeding business day.

To close the schools on each of the ten holidays would shorten each pupil's school year by two weeks.

Columbus was a student of geography and mathematics. It is quite certain that he would prefer our children to celebrate his discovery of America by regular attendance at school where special attention would be given to his courage, perseverance and life, and their knowledge of geography and mathematics increased by loyal work in their regular lessons.

He would not prefer that the schools be closed and that the pupils spend the day in idleness.

A similar argument applies to nearly all the other holidays.

IMPROVEMENT IN WRITTEN ENGLISH SINCE 1921.

The following table shows the number of errors per 100 words made in the mid-year compositions test in 1921 and 1927.

The center column of figures gives the number of errors per 100 words.

Each figure at the right or left represents a pupil of that grade.

For example, the 8, 7, 6, 6, 5 at the right of 2 errors means that one 8th grade pupil, one 7th grade pupil, two 6th grade pupils and one 5th grade pupil each made the score of 2 errors per 100 words.
